## REASER TALKS ON RELIGION, RETARDATION

"Religion and Retardation" was the subject of a talk given Tuesday evening by Dr. Paul L. Reaser, pastor of St. James Lutheran Church, at the April meeting of the Adams County chapter of the Pennsylvania Association for Retarded Children.

Dr. Reaser said in part: "Religion's concern is not only for the religious education of the child but also in seeing that every child has a wholesome home and community environment in which to grow. We are interested in promoting the highest type of family life."

"It is certainly true that parents receive a terrific blow when they first learn that their child is mentally retarded. That blow is, understandably, hard to accept. No illness that besets mankind imposes a heavier burden upon more people than the arrested development of the brain that results in mental retardation. In the U.S. alone this has reached into more than five million homes. . . .

### HAUNTING QUESTIONS

### DECISION ON HEATING

The bids were opened by John Gilbert, representing J. Alfred Hamme and Associates, York architects, and were examined by legal counsel before they were read and tabulated. President Arthur E. Hutchison of the school authority presided at the meeting which was attended also by President Oren H. Wilson of the joint school board, Robert W. Weaver, chairman of the Finance and Planning Committee, and several other directors and school officials.

One decision facing the Finance and Planning Committee next Monday will be whether the heating plant in the new unit shall be "tied in" with the heating system of the present building. The "tie-in" is covered in specifications for the heating and ventilating contract but on alternate offers some bidders said up to \$9,600 could be saved by eliminating the interconnection.

Discussions Tuesday indicated school districts will start paying rentals on the new building next December. Annual rentals are expected to approximate \$35,000 on a 40-year bond issue but the initial rental will be in the neighborhood of \$25,000. Rentals will be paid annually in December.

The bond issue to finance the structure likely will be offered for sale late in May.

## SEE \$550,000 PRICE TAG ON SR. HI ANNEX; BIDDING CLOSE

The Gettysburg School Authority opened bids at a special meeting Tuesday evening at the Senior High School building for a 15-room addition to that building with construction scheduled to begin this summer and August 15, 1966, set as the completion date.

Bidding was close for all of the contracts but the total of the lowest base bids for the general construction, plumbing, heating and ventilating and electrical contracts comes to \$503,454.

Furnishings, architects' fees and other incidental costs will push the total cost to about \$550,000, it was indicated in discussions Tuesday evening.

### CARLISLE FIRM LOW

Contracts will not be awarded until after a meeting of the Finance and Planning Committee of the joint school board next Monday evening. The closeness of the bidding and the presence of bids on a number of alternate items in the general and the heating and ventilating contract offers made it impossible to determine successful bidders Tuesday evening.

The lowest offer of seven for the general construction contract was submitted by the J. E. Hurley Co., Inc., Carlisle, at \$368,990. The next lowest offer came from A. B. Seifert and Son, York, builder of the present Senior High School building, at \$379,800.

The other offers follow: McCoy Brothers, Mt. Holly Springs, \$393,990; R.

her little girl born with cerebral palsy. Raising this child is looked upon as a sacred trust by this family and the parents derive great comfort from the support of their spiritual advisers. For these people, God is actually a very present help in time of trouble.

"Religion declares several things very clearly about this human situation and others that are related: 'Every child born into this world is a product of God's creative work; God loves each and every one, regardless of state of health or strength or color or handicap; God permits some persons to be born with handicaps of body and mind as in the natural world he permits the cyclone and flood; religion does not pretend to offer a magical formula to cure all these but does insist that God wants us to use all possible means and to seek additional means to help these less fortunate, and religion doesn't say, 'You have an ill child because you have sinned greatly; this is your punishment' but it says rather: 'God will make all things work together for good to those who love Him.'"

"So much of the darkness concerning mental retardation is being chased by the faith that for any illness there is potentially a cure. Among those who believe this are the Joseph P. Kennedy family who have donated over \$22 million for research and, of the 100 causes known, 60 of the causes of retardation have cures.

NO EASY ANSWER

"Religious faith will esek competent medical and psychological advice. Sometimes parents are loath to do this . . . and a parent's attitude of hopelessness may be an extra handicap to the child. Our religious faith not only seeks the best advice possible but lends courage to accept competent advice when given. Sometimes there is no magical answer.

"If there were an easy answer to this problem of retardation, how grateful we would be for it. Lacking that, our ultimate solution must be based on faith that God knows what He is doing and that faith in the long run will help us see that struggling with our burdens in life helps to make us stronger."

## REDS WARN OF "WORLD WAR"

MOSCOW (AP) — Soviet Marshal Ivan Konev warned today that Western "provocations" may "at any moment trigger off a military conflict and hurl mankind into the abyss of another world war."

"The flames of war fanned by the imperialists in Viet Nam are threatening to spread to other areas, thereby creating tension all over the world," Konev said. "The Soviet Union cannot remain indifferent to the destiny of the fraternal Vietnamese people."

Konev spoke at a news conference marking 20th anniversary celebrations of the end of World War II.

Konev spoke of the strength and hitting-power of the Soviet Union's strategic missile forces. "The main lesson of World War II is that military ventures of the imperialist forces against socialism inevitably lead to the complete rout of the aggressor," he said.

## Edward R. Murrow Of 'This Is London' Fame, Expires

PAWLING, N. Y. (AP) — Tributes from President Johnson and others poured in today for Edward R. Murrow, the chain-smoking newscaster who became internationally famous during World War II with his blitz broadcasts from London that began: "This — is London."

Murrow, who turned 57 last Sunday, died Tuesday at his farm after an 18-month battle with lung cancer. A funeral service will be held at 2 p.m. Friday at St. James Protestant Episcopal church in New York City.

Murrow's voice was deep, resonant. Some compared it to a voice of doom. His face was high-domed, lopsided, worried. A cigarette dangled from his mouth.

### HEADED USA

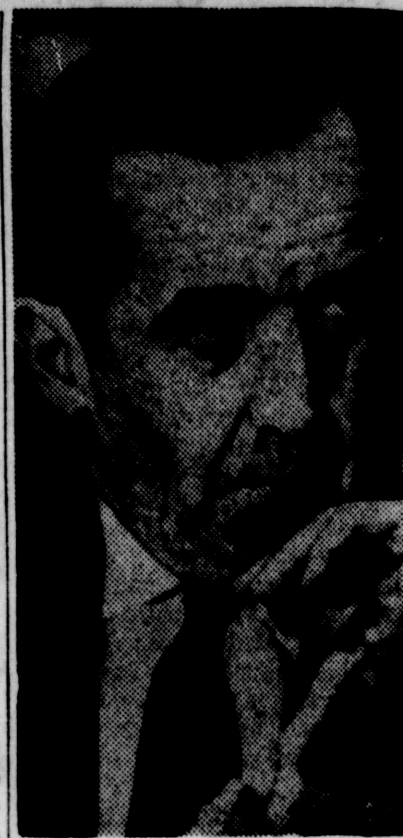

His London broadcasts produced for American radio listeners distinct, lifelike images of the courage and determination of the British under Hitler's air blitz.

After his stint as a Columbia Broadcasting System correspondent in London, he won fame as a pioneer television journalist and later in government service as head of the United States Information Agency.

President Johnson, who gave Murrow the Medal of Freedom — the highest civilian honor the White House can confer — last Sept. 14, said:

### "GALLANT FIGHTER"

"We who knew him knew that he was a gallant fighter, a man who dedicated his life both as a

newsmen and as a public official to an unrelenting search for the truth. He subscribed to the proposition that free men and free inquiry are inseparable. He built his life on that unbreakable truth."

The other two major television networks—NBC and ABC—joined CBS in eulogizing Murrow.

The London Times carried a two-column obituary which said in part:

"His magnificent coverage of the wartime scene in Britain won him much richly deserved admiration."

## Today's Talk

### HOW TO BE INTERESTING

Interesting people are rarely lonely! This undoubtedly is due to the fact that others are always on the lookout for such people. People who read a great deal, travel much, and write books about what they see and whom they meet are interesting people.

If you have something worth while to say, and say it with sincerity and feeling, you will have listeners and you will be interesting. The more things you can talk about, the more people you know, and the more things you become interested in — these are what make an outstanding personality, one that always attracts attention.

People who are always interested in other people themselves become interesting, for nearly everyone is first interested in himself. It takes a genius to impart one's personality. Not merely the interesting talker, but the intelligent listener, often becomes the most interesting one in a group. People keep their eyes on such a one, speculating upon what he is thinking.

The more we all know the more interesting we are to ourselves, and that makes people hunt us out. Dull, stupid people are not interesting, but there is many a failure who is far more interesting than the one who boasts success. People who strive are interesting, whether they win or lose.

You can become interesting the moment you begin to take an interest in other people. If you can arouse their interest in something that has greatly interested and profited you, such a person will listen to you with an open and willing mind. Cheerfulness, enthusiasm, unselfishness, and a happy outlook upon life go far toward making one interesting.

So many people today habitually complain and find fault that when you meet a person who is full of hope and kindness, and who takes life in its stride, you feel like embracing him on the spot! It always gives me a spiritual lift to meet a person who seems to spark everyone met. How to be that sort? Just decide to be — that's all!

He took care of his money, for money is wealth. But never once thought to take care of his health. His bank account thrived, since he made sure of that. But he never once thought he was growing too fat.

The future, he knew, would have gray in the skies. To be ready for rainfall a man must be wise. So to stack up the dollars he ceaselessly slaved. Forgetting entirely that strength can be saved.

He did without sleep for the fortune desired; Forced himself to keep on when his body had tired. But he got little comfort from all of his wealth. When he found to obtain it he'd squandered his health. Protected, 1965, by The George Matthews Adams Service

Installation of officers will be held in conjunction with the third annual Communion breakfast on Sunday, June 6, for which plans will be announced. Other officers elected include Mrs. Paul E. Altoff, vice-president; Mrs. John Harmon, secretary; and Miss Nancy Ooster, treasurer. Retiring officers are Mrs. Bernard M. Selby, president, and Mrs. Donald L. Beford, secretary.

The parish council was represented at the 40th annual convention of the Harrisburg Diocesan Council of Catholic Women held on Monday at Holy Trinity High School, Siremanstown. Mrs. Thomas G. French, who is the retiring director at large from the Conewago Deanery, attended the business meeting of the diocesan board on Sunday afternoon and the board dinner meeting on Sunday evening, as well as the all-day convention sessions. Mrs. Harold Lynch, Mrs. John Harmon and Mrs. Paul Altoff also attended the full-day sessions. In addition, the following were present for the closing banquet: The Rev. Dr. Bernard M. Selby, retiring parish president; Mrs. C. Donald Bowser, president-elect; Mrs. John L. Redding, Mrs. William T. Gingrow, Mrs. Harry W. Staveland Sr., Mrs. Ivan Rickrode, Mrs. Noah C. Snyder, the Misses A. Marie Budde, Evelyn C. Altoff and Sally Metz.

The convention theme was "Love — God, Neighbor, World." This theme was carried out in the sermon at the convention Mass by the Rt. Rev. Msgr. Roy C. Keffer, moderator of the West Shore District Council, the hostess group, in the luncheon talk by William B. Ball, general council for the Pennsylvania Catholic Welfare Council; in the four interest groups with panel sessions held during the afternoon and in the closing address at the evening banquet by the Most Rev. Joseph T. Daley, auxiliary bishop of Harrisburg. Closing remarks were heard from the Most Rev. George L. Leech, bishop of Harrisburg.

The latter acknowledged and thanked the approximately 700 women and members of the clergy in attendance for the spiritual bouquet of 349,265 Hail Marys offered during the last year for vocations and the check for \$12,000 to be used for special diocesan activities. Devising a way to assemble a potential talent pool within the diocese was a suggestion offered by his excellency as a council project for the coming year. Miss Patricia Mannix, diocesan president, accepted the challenge in the name of the council.

Last year 1,050 conventions were held in New York City.

## Littlestown Downs Warriors Bold Lad Is Firm Favorite To Strengthen Grip On First Place In County Loop

Littlestown High School's fast stepping baseball team took a big stride toward the 1965 title of the Adams County League by nipping Gettysburg 3-1 in an exceptionally well played game Tuesday evening under the lights at Memorial Field, Littlestown, before a good sized crowd.

The Thunderbolts are now 5-0 in the league while the Warriors, sustaining their initial setback, are 2-1. Overall Littlestown is 7-1 and Gettysburg is 2-2.

Mike Herring, losing pitcher, and Bob Smith, the winner, hooked up in a fine pitchers' duel, the former allowing six hits, five of which came in the third, when the Bolts scored all of their runs.

The first of White's triples was wasted in the first inning. Tony Bushey opened the game with a walk but was thrown out attempting to steal. White then tripped but was left stranded as Smith retired the next two batsmen on a strikeout and an infield bouncer.

**ALL RUNS IN 3RD**  
Gettysburg notched its tally in the top of the third. With two out, Bushey drew his second base on balls. White followed with his second three-base blow after which Tom Weikert bounced to the pitcher.

Littlestown put together five of its six hits in the bottom of the same frame for all of its runs. The singles were consecutive from the bats of Smith, Jim Stravig, Greg Myers, Bruce Crouse and Neal Leister. Two poor throws by Warriors played a big part in the scoring.

The Warriors will meet New Oxford here Thursday afternoon in another league game. Littlestown will be idle until next Tuesday when it hosts New Oxford in another league game at Littlestown.

**BIGLER TOPS FAIRFIELD 2-1**

Wayne Crum's sterling relief pitching sparked the Biglerville High School baseball team to a 2-1 decision over Fairfield in a county league game Tuesday at Biglerville.

Crum relieved starter Don Black in the sixth inning when Fairfield threatened with one out on a walk to Barry Fitz and double by Gus Rice. He fanned Gary Deardorff and got Roger Kuykendall on an infield pop fly to prevent a score and then fanned the side in the final inning.

Fairfield scored its run in the first inning. With one out, Miller was safe on an error. Fitz doubled, Miller stopping at third. After Rice fanned, Deardorff singled Miller home.

Dan Wyckoff tripled to open Biglerville's fifth and Bob Funt ran for him. Mel Mentzer was retired. John Weaver, attempting a squeeze bunt, missed the ball but the catcher also failed to make a catch, Funt scoring.

The winning run in the sixth came on walks to Dick Hartman and Howard Coulson and Wayne Crum's single to score Hartman.

Biglerville, 3-2 for the season, plays at Bermudian next Tuesday. Fairfield, winless in three starts, meets Bermudian at York Springs Thursday.

### BOLD LAD IS FIRM FAVORITE FOR THE DERBY

**By ORLO ROBERTSON**  
Associated Press Sports Writer  
LOUISVILLE, Ky. (AP) — Bold Lad was back in the good graces of his fans today and the firm favorite to take the 91st running of the \$125,000-added Kentucky Derby Saturday at Churchill Downs.

The powerfully built chestnut son of Bold Ruler from Mrs. H.C. Phipps' Wheatley Stable erased any doubt as to his fitness Tuesday when he sped the one mile of the Derby Trial in 1:35 1-5 and scored by four lengths.

There had been some doubt as to the 1964 2-year-old champion's readiness for the big test after he finished a tiring third in the Wood Memorial at Aqueduct 10 days ago. But Bold Lad lost no time erasing any doubts with his superb performance in the Trial.

**THE WAY HE DID IT**  
It was not so much the horses he beat as the manner in which he did it as he soundly whipped P.L. Grissom's Carpenter's Rule and the Darby Dan Farm's Bugler another six lengths back for third place in the field of five.

With Bill Hartack in the saddle for the first time, Bold Lad trailed the early leaders as the first one-quarter mile was clocked in 22.3-5 seconds and the one-half mile in 45.4-5. Leaving the half-mile pole, the Wheatley ace quickly passed Apple Core, and with one tap from Hartack's whip at the head of the home stretch, galloped home an easy winner.

He finished out the 1 1/4 miles, one-eighth of a mile shorter than the Derby, in 1:49.

**BUGLER RULED OUT**  
"I would compare him very favorably with Native Dancer," said trainer Bill Winfrey, who was not at a loss for words in praising Bold Lad's performance. Winfrey also trained Native Dancer, who ran second to Dark Star in 1953 after being bumped at the start.

Trainer Jimmy Conway declared Bugler out of the Derby with the remark, "He doesn't belong in that kind of company." Frank Childs, who saddled Tommy Lee for his 1959 Derby triumph, said Carpenter's Rule would be in Saturday's starting line-up but added: "He'll never beat Bold Lad. He's just too much horse."

With the probable starting field still listed at 11 or 12, Bold Lad is expected to go postward at odds of 9-5 or even shorter.

Post time is 4:45 p.m. EST, with national television (CBS) scheduled for 4:55 p.m. If 12 are entered Thursday morning and all start, the Derby will gross \$56,000 with \$113,500 earmarked for the winner.

### LL Tryouts Will Be Held Tonight

The 11 and 12-year-old candidates for the Gettysburg Little League teams will have tryouts this evening at 6 o'clock on the field at the recreation park.

It was announced today that 10-year-olds who have not yet reported will work out at the same time this evening.

In the event weather prevents the tryouts tonight they will be held Friday evening.

### BULLETS DROP TRACK MEET AT DELAWARE

Joe Egresitz came up with another record smashing throw in the javelin but the Gettysburg trackmen suffered their third setback as Delaware carried off an 86-54 decision Tuesday afternoon on the University of Delaware track.

Egresitz, only a Sophomore, threw the javelin 208'2" setting a new Delaware field record and also bettered his own school record of 196'4". Two other Sophomores, Bruce Wilson and Don Ardinger, came up with a pair of wins each to pace the Bullets.

Wilson won the 440-yard dash and the broad jump while Ardinger copped the 100 and 220-yard dashes. Ardinger's time in the 100 was 10 seconds flat.

Delaware captured 10 of the 16 events. "Skip" Stafford and Joe Donelli were double winners for the Blue Hens. Stafford won the mile and two-mile races. Donelli won the shot put and discus.

Gettysburg's only other winner was Pete Herslow in the 330 intermediate hurdles. Sophomore Scott Shoupe had his troubles as he had to settle for a third in his specialty, the pole vault. He also took a second in the 120 high hurdles and a third in the intermediate hurdles.

# HAIFETZ SEEKS 'OUTSTANDING' YOUNG TALENT

By BOB THOMAS  
AP Movie-Television Writer  
HOLLYWOOD (AP) — "I am a teacher; I need students." With that simple comment, violin virtuoso Jascha Heifetz issued a call for young musicians to study under his guidance.

Heifetz is a perfectionist in all things. He has devoted his entire life to the violin. In his new work as a teacher he strives for perfection on a smaller scale, but perfection nonetheless.

He has been disturbed by the progress of his classes at the University of Southern California. He feels they have been successful, but limited. That was what he wanted to talk about one afternoon at his villa atop Beverly Hills.

"SEND YOUR BEST"  
"I want to let students know that I am looking for outstanding talent," he remarked.

"I know there is talent out there, but I haven't been getting it in large enough numbers. I would like to appeal to the violin teachers and professors of the country to loosen up and send me their best pupils."

Heifetz added wryly: "The fact that I am teaching at USC has been a well-kept secret. It is about time the secret was let out."

The Heifetz master class, a title he is a bit uneasy about, is a curious one by academic standards.

"We don't go by the book," he explained. "I give no medals, no diplomas, no grades. Students can not get credit for the course, but that is something recent. While I do not give grades, I may flunk a student. I am a teacher, it is my duty."

"We meet twice a week, but there is no set time for the length of the class. There are six or seven in the class now, plus auditors. Each student plays with the others listening; that is how they learn. A student might play five minutes or two hours, according to how well prepared he is."

"One semester and they want to start on concerts," he said, shaking his head. "There is too much money around, too many prizes and scholarships. The students don't study enough; the greatest lack today is discipline. They must practice self-denial in order to achieve."

Heifetz's own life and career proves that. He still maintains a rigid practice schedule to a minimum, playing occasionally with his good friend, cellist Gregor Piatigorsky.

"I am not dying out," the

## Name Lindberg To Wildlife Board

WASHINGTON (AP) — A famous aviator whose search for privacy was so successful that he is seldom recognized by the general public found his name back in the news today.

Charles A. Lindbergh, the first man to fly the Atlantic alone, was named a director of the World Wildlife Fund. His selection was announced by Dr. Ira N. Gabrielson, president of the Wildlife Management Institute.

Lindbergh has been working quietly in a downtown Washington office for several months, his efforts directed at the protection of wild creatures. Now 63, he lives in Darien, Conn.

## SAVIO LEAVES SPEECH GROUP

BERKELEY, Calif. (AP) — Mario Savio, the 22-year-old leader of the student revolt at the University of California, has left the Free Speech Movement and he says he might step out of the Berkeley campus picture entirely.

Savio made his surprising farewell Monday at a student rally on the steps of Sproul Hall, the administration building into which he led about 1,000 persons last December for a massive sit-in.

"This is my last rally," said Savio.

The former honors junior in philosophy was vague about his reasons for leaving the movement.

"Even if I do return as a student," said Savio, who left school shortly after the December turmoil, "I won't take part in political activity."

Savio is one of 155 persons on trial in Berkeley municipal court on charges of disturbing the peace, trespassing and failure to disperse which grew out of the sit-in. There are 690 persons charged.

HARRISBURG (AP) — Two bills introduced in the House on Monday contain provisions to benefit certain state employees. One bill would provide \$4 million to the Department of Public Welfare, for 10 per cent pay raises to all salaried and wage personnel. The other would automatically classify handicapped state employees for civil service coverage.

# THOUSANDS OF AFRICANS FACE STARVATION

PORT ELIZABETH, South Africa (AP) — Thousands of Africans living off the land in the sprawling Ciskei region between here and East London, 200 miles to the east, are threatened with starvation. Drought has reduced their fields to parched wasteland.

Cattle have died and others are too weak to be taken any distance in search of grazing and water.

With winter rapidly approaching, a strange mental depression has set in among these country folk. Everywhere there is talk of poverty, starvation and death.

## CHURCHES HELPING

Help is needed desperately. Except for efforts by church mission stations, nothing has been done for these tribesmen.

Africans do not get all the state benefits accorded to drought-stricken white farmers. There is talk of an appeal to the state for help.

There are no irrigation schemes to bring water and no feeding schemes for humans or stock.

Methodist and Anglican churches have combined to run a school feeding scheme, but they lack funds.

Some people say it already is too late for rain to help. Dr. P. DeVos, head of the Department of Sociology and Social Work at Fort Hare University College at Alice, described the position as "really desperate." He said the people called the drought the worst in 70 years.

## Yanks In Viet Nam May Accept Honors

WASHINGTON (AP) — The House has approved and sent to the Senate a bill which would permit U.S. servicemen to accept decorations from the South Vietnamese or any of its allies in the Viet Nam war.

The Constitution forbids U.S. citizens from accepting foreign decorations without consent of Congress.

## CARNEGIE FUND GIVES MEDALS FOR HEROISM

PITTSBURGH (AP) — Four Pennsylvanians who saved several small children from perishing in fires and a Delaware man who died while attempting to rescue two teen-agers from drowning were cited today for heroism.

The Carnegie Hero Fund Commission awarded bronze medals to Norman L. Geissler, 40, a machinist, and Joseph J. Muldoon, 27, an office clerk, both of Elkins Park, Pa.; and C. Columbus Croom, 38, an automotive serviceman, and Columbus L. Matthews, 21, a used car lot attendant, both of Philadelphia.

**POSTHUMOUS MEDAL**  
A bronze medal was awarded posthumously to James David Zimny Jr., 47, a construction superintendent from Wilmington, Del. His widow received death benefits.

A total of 26 persons from 11 states and Canada were honored. Geissler went into a burning three-story house in Elkins Park April 21, 1963, and saved Sharon, 7; Laurie, 2; and Paul Newman who were asleep in second floor bedrooms. After carrying the children from the dwelling he collapsed from smoke inhalation but was revived.

Muldoon ascended a ladder to a second floor window, climbed through and saved Daniel Newman, 1. He also was treated for smoke inhalation.

Croom and Matthews saved Aaron, 1; Wayne, 2; and Rodney Rice, 3, from a burning three-story house in Philadelphia Dec. 18, 1963.

## SPACE CHIEFS REFUSE WOMEN FOR TRAINING

NEW YORK (AP) — U.S. space officials apparently think a woman's place is here on earth — at least for the time being.

Some of the gals think otherwise. Some agree. Others couldn't care less.

The mixed reaction came after four women, whose names were not disclosed, were turned down Monday by the National Academy of Sciences in Washington as applicants for scientist-astronauts. There are 28 astronaut slots in the U.S. space program. All are men.

**WANTS EQUAL CHANCE**  
"I think it's a shame that women aren't given the same chances as men," said Jerrie Mock, a Columbus, Ohio, housewife who flew a light plane around the world last year.

Mary Ann Noah, of Fairway, Kan., winner of the 1964 Powder Puff Derby, said: "I hate to be a traitor to my sex, but I do think men can go it alone in this field for a while. The time will come when women can contribute, but space flights should be left up to the men for the time being."

**MEN PRISONERS**  
Mary Atkins, of Wichita, Mrs. Noah's copilot in the 1964 derby, said: "We couldn't gain any prestige by putting a woman into space just for the sake of doing it — Russia has beat us to the punch on this. This country feels protective toward women and leaves it to the men to do the pioneering."

Katherine Peden, Kentucky commissioner of commerce, said she wished she were young enough to apply.

NORRISTOWN, Pa. (AP) — Alfred Crawford, Jr., Bellevue, Wash., has filed suit in Montgomery County Court to break the will of his late mother who left the bulk of her \$750,000 estate to establish a park in Norristown where she lived most of her life.

The son was bequeathed only a grandfather's clock.

Crawford charged on Tuesday that the attorney for his 80-year-old mother, who died in March, 1964, used undue influence to leave most of her money to charity.

## REPORT REDS READY TO HOLD ARMS' CONFAB

PARIS (AP) — The Soviet Union agreed Tuesday to a French proposal to call a five-power conference on disarmament to include the world's atomic powers, reliable French sources reported.

The sources said Soviet Foreign Minister Andrei A. Gromyko agreed to the French proposal in his second series of talks with French Foreign Minister Maurice Couve de Murville.

Such a conference would embrace the United States, Britain, France, the Soviet Union and Communist China and would exclude participation by non-atomic nations.

**GROMYKO SMILES**  
Gromyko emerged smiling from a 2½-hour meeting with Couve de Murville.

"We discussed today the problems relating to European security and especially concerning ways of regulating the German question. We also have discussed problems relating to the activities of the United Nations and certain questions on Franco-Russian relations," Gromyko said.

Gromyko declined to elaborate. French sources confirmed the Soviet visitor's description of the talks.

The medium salary for U.S. engineers is \$11,325.

# ADLAI CHARGES REDS DAMAGED ARMS DEBATE

By MILTON BESSER  
UNITED NATIONS, N.Y. (AP) — Ambassador Adlai E. Stevenson accused the Soviet Union Monday night of baseless attacks on U.S. policy in Viet Nam which he said virtually torpedoed any chance for a meaningful disarmament debate in the United Nations.

Stevenson told the 114-nation U.N. Disarmament Commission that in a speech lasting 53 minutes, Soviet Delegate Nikolai T. Fedorenko devoted only 38 seconds to disarmament.

"If this day's work is what the Soviet Union had in mind when it called this meeting, our worst fears would be confirmed that little will be accomplished here," Stevenson said.

The Soviet Union had asked for a meeting of the commission, on which all U.N. members have a seat, as a prelude to reconvening the 18-nation Disarmament Committee in Geneva.

Opening the public debate, Fedorenko delivered a blistering attack on U.S. foreign policy, particularly in Viet Nam.

He said Britain and the United States were engaging in "nuclear blackmail" in Southeast Asia.

Stevenson listed what he described as Communist aggression in the Baltic states, Iran, Tibet, South Korea and India.

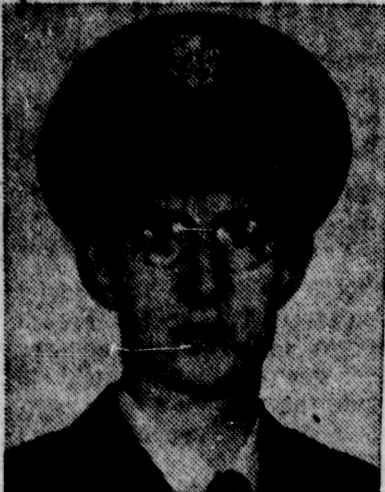

"After this record the Soviet Union presumes to lecture the United States about aggression," he commented.

All you need to do to chop or cutlets before cooking them is to wipe with a damp cloth.

## U.S. Grants Visa To Cuban Envoy

LONDON (AP) — Julio Cesar del Castillo, Cuban consul-general in London, has been granted a visa to live in the United States, the U.S. Embassy said Sunday.

A London newspaper had reported that Del Castillo, 64, defected and is aboard the British liner Queen Mary bound for New York. The ship is scheduled to dock Tuesday.

A Cuban Embassy spokesman said nothing was known there about a defection. The spokesman added that Del Castillo had been recalled to Havana and was due there at the end of this month.

## Seek Rate Tariff On Community TV

HARRISBURG (AP) — The Public Utility Commission is considering a proposal by the Bell Telephone Co. of Pennsylvania establishing a rate tariff to cover the use of telephone facilities for the transmission of Community Antenna Television Service (CATV).

Bell noted in its proposal, filed Monday, that the rates and contractual details would cover the relationship between the telephone company and the various CATV firms. The CATV firms would continue to devise rates and contractual conditions under which they would supply service to the public.

If approved by the PUC, the Bell proposal would become effective June 25th.

## Sees Computers For Homework

COLUMBUS, Ohio (AP) — Electronic computers to help junior with his homework will be commonplace in another 35 years says Albert J. Gracia, vice president of research for the Goodyear Tire & Rubber Co.

"In virtually every middle class home in the year 2000 you will find a control center of electronic computation for keeping budgets, planning menus, figuring income tax, reminding the family of appointments, helping the family arrive at a policy decision, and — yes, helping junior with his homework," Gracia said in an address to outstanding Ohio high school science students.

PHILADELPHIA (AP) — Two policemen, Richard Crager, 26, and John Jaconi, 33, were free today after being dismissed of charges of stealing three hubcaps from a parked car. The owner of the auto, Marie Dorham, said Friday she did not want to press charges because the property was returned to her.

## SENATE OKAYS THREE BILLS

HARRISBURG (AP) — Three bills which supporters say are designed to stimulate home building in Pennsylvania are on their way to the House following approval Monday in the Senate.

The bills provide that persons who buy a single home within a year after its construction are exempt from local and state realty transfer taxes.

One of the measures also extends the exemption to the builder when he accepts the buyer's old home as a trade-in on the new residence.

The Senate also sent to Gov. Scranton on a vote of 49-0 a "Good Samaritan" bill which would require the Liquor Control Board to set down in writing its reasons for rejecting, on grounds of welfare and safety, an application for an establishment within 200 feet of an already licensed operation. The bill went to the House on a vote of 49-0.

Another bill passed by the chamber and sent to the House was a proposal which would exempt charitable, religious and nonprofit educational organizations from liability for certain torts by their officers, agents or employees.

The vote was 32 - 12 and crossed party lines.

## County Carpets Prison Platform

SAN BERNARDINO, Calif. (AP) — The county is rolling out the carpet for its prisoners. Slanting up to the courthouse from a spot where prisoners are unloaded is a ramp now carpeted in green. Why not the red carpet treatment? Safety coordinator Thomas H. Jay says prisoners were more prone to violence when they see red.

Jay said the ramp had been dangerous, slippery in rainy weather.

## Catch Big Catfish In Flooded Airport

ST. PAUL, Minn. (AP) — The Mississippi River, which has flooded lowlands in Minnesota for a month with huge property losses, proved a boon to three adventurers, wading hip-high in its muddy waters Monday.

The youngsters were casting a line for rough fish, generally known as scavengers, in three feet of water covering St. Paul's downtown airport.

"Something seemed to have caught on my hook," said Tom Dahir, 15, "and I began to pull it in slowly."

Jim Weber and Danny Josephs, both 19, scooped that it "must be a log."

Dahir drew the line closer, then shouted for his companions to "grab my fish."

The three youths grasped the sluggish fish and walked nearly a city block to dry land.

The catfish weighed 40 pounds, measured 44 inches in length and its girth was 26½ inches.

## Laymen Attempt Church Interest

NEW YORK (AP) — A major effort to revitalize the public worship of the Protestant Episcopal Church is under way with the aim of relating the sacraments, the prayers, the ceremonies and the music of the church to every aspect of a modern Christian's daily life.

The three-day liturgical conference opened Monday with more than 1,000 clergymen and laymen from across the United States in attendance.

## TEACHERS ELECT

ANNVILLE, Pa. (AP) — Dr. Bernard J. Downey, chairman of Villanova University's chemistry department, is the 1966 chairman of the Pennsylvania Association of Chemistry Teachers.

## STATE HOUSING PLAN TO MOVE

HARRISBURG (AP) — John K. Tabor, state secretary of commerce, says the Scranton administration's \$50 million program to finance middle-income housing will be under way before the end of the year.

At the same time, Tabor announced that the Pennsylvania Housing Agency was considering seeking legislation to permit the state to finance home building with mortgages that are guaranteed by sources other than the Federal Housing Administration.

Tabor made the disclosures on Monday after meeting with 25 mortgage specialists from banks and building and loan associations throughout the state. J. Stanley Purnell of Pittsburgh, head of the Pennsylvania Housing Agency, also attended the meeting.

The Pennsylvania Housing Agency is empowered to float bonds in its own name, requiring no public referendum.

Tabor envisioned long-term mortgage loans calling for less than 4½ per cent interest, the actual interest rate depending upon the amount of interest the state must pay on the bonds that it sells.

PHILADELPHIA (AP) — Elmer Duffy, 10, contending "it was an accident," has been sentenced to an indefinite term in the youth study development center for setting a fire in St. Henry's Roman Catholic Church on Good Friday. County Judge Clifford Scott Green imposed the sentence Friday after hearing testimony from a juvenile aid policeman.

## ARMY VET OF 40 PLAYING BALL FOR MD.

By GORDON BEARD

Associated Press Sports Writer  
COLLEGE PARK, Md. (AP)—Bill Flynn, a combat veteran of World War II and 40-year-old father of three, has embarked on a new career as a student at the University of Maryland.

Hitting the books again after a 22-year lapse is hard enough, but Flynn is also doing some hitting as a member of Maryland's freshman baseball team.

The new career was borne of necessity when Flynn's Army service was cut short by a Department of the Army policy that all officers have college degrees. He was retired as a captain last August after 20 years of duty.

The thought of this forced retirement gnawed away at Bill Flynn. It was partly responsible for his taking a whirl at baseball with players half his age and not much older than his 15-year-old son.

"I guess I went out for the team to prove I still had the capacity to perform physically with younger people, as well as the mental capacity to stay with them in class," Flynn said.

Neither the class work nor baseball has come easy, but

Flynn is enjoying the challenge. **HAD PLAYED EARLIER**

Flynn is majoring in business education, with his future set on a teaching career. He wants to minor in history.

During the Christmas vacation, Flynn began thinking of a baseball comeback. He had played the sport in high school at Easton, Pa., and for 14 years in the Army—where he also managed teams for nine seasons.

"I talked it over with the varsity coach, Jack Jackson, and he sort of chuckled," Flynn said. "But after pumping me with questions, he found out I knew a little bit about the game."

**WIFE IS TEACHING**

Flynn's wife, Marjorie, who has resumed her elementary school teaching career while Bill goes to college, and who is expecting in June, didn't object.

"After laying off from baseball for about three years, I had trouble getting into shape," Flynn said, "and the day after a game, I knew I had been in one."

Flynn, a left-handed batter, has collected four hits in 12 tries for the frosh while playing first or second base. He also helps direct the squad when Coach Whitey Stevens goes on the road with the varsity.

The U.S. Mint will produce some two billion nickels this year to alleviate the coin shortage.

## COMEDY OPENS ALLENBERRY

Richard North Gage, director of the Allenberry Playhouse, opened his 37th season Saturday evening with the presentation of the comedy "Beekman Place" by Samuel Taylor, before a large audience, preceded by dinner at Fairfield Hall.

Set in a plush apartment in Beekman Place, New York, the cast of seven was adept in its handling of the clever lines in this sophisticated adult story about marital shenanigans. Reginald Rowland Jr. plays Christian Bach-Nielsen, retired concert violinist, in whose apartment the action takes place. He plays one of the best roles he has had in the 91 he has played at Allenberry since 1956, in which he has run the gamut of the acting art. His wife, Emily, is played by newcomer Lin Kennedy who has experience in all facets of the entertainment world. She has appeared in a movie with Peter Sellers and she has had TV roles in "The Defenders," "The Nurses," etc.

Betti Endrizzi, with 16-year experience at Allenberry, plays the attractive Lady Pamela Piper, who with her daughter, Augusta, played by the pretty English Kathy de la Mare, wife of John Heinze, Allenberry manager, descends on the Bach-Nielsons when they are "put out" of England. A newcomer, Jim Oyster, playing Simon Holt, Augusta's English inamorata, proves to be an excellent actor. Veteran Don Draper plays Samuel Holt, his father, and Deena Crawford completes the cast as the brash maid, Mildred.

At intermission Mr. Gage and Charles A. B. Heinze, Allenberry president, welcomed the guests.

## A Lovelier You

By MARY SUE MILLER  
In my travels, I have seen women tourists fall by the way-

side from sheer physical discomfort. It most often happens because of the misguided idea that the less you wear the more comfortable you will be.

Following this principle, the sightseer goes hatless and wears open thong sandals. Then comes the noonday sun. Unprotected from the heat, milady's head and feet begin to burn and throb. She soon becomes a casualty and gives up.

To pleasurable sightseeing, a travel hat and walking shoes are basic. Actually new travel hats are among the marvels of fashion. They are weightless and airy on the head, yet they sit securely. They offer full protection, without musing a hair. In fact they save the hair from tousled looks on windy days. Not to mention the days it needs a "do!"

For the reason that travel hats are made of uncrushable silks, linens and straw braids, they roll up to fit in a pocket or tote bag. The shapes are fun and flattering. Brims snap or undulate; bowed snoods and berets drape to suit your whim.

Shoes are on the travel beam, too. With low to middling heels, walkers are constructed of supple leathers to shield and support the foot. But their look and feel is feather-light. Swings!

At ease on the scene and easy

stage today was 24 feet — 8 feet above flood stage — and still rising. Police said 18 to 20 inches of water covered some streets.

Police and National Guardsmen patrolled the downtown area against looters. The city of 20,000 has no levee.

The immediate danger remained in the Quad Cities, with a population of more than 270,000.

The Mississippi, rampaging on its worst flood in history, crested at 24.7 feet, nearly 9 feet above flood stage, in the Clinton, Iowa — Fulton, Ill., area Tuesday, then surged on to pound the Quad Cities.

**6,000 HOMELESS**  
The Red Cross has estimated that 3,000 are homeless in Illinois and the same number in Iowa. Damage estimates ranged into the millions. Both states have been designated disaster areas by President Johnson.

Fulton, a community of 3,800 population across the river from Clinton, was isolated by floodwaters. About 1,500 persons have been evacuated.

In Rock Island, City Manager Raymond Botch said the levees and dikes are holding, except one levee at the northern end of the business district. The river was at 22.3 feet, only 2 inch below the predicted crest. A steady rain fell during the night.

**DIKE BREAKS**  
Sandbagging was stepped up in a commercial area where seepage and boils appeared behind a temporary levee. A secondary dike was thrown up.

In Davenport, part of a dike broke Tuesday night, flooding an area a block wide and eight blocks long. Workers began

**MOST FLATTERING COLORS**  
In fashion, nothing makes you lovelier than color. It can enhance your skin, hair, eyes and figure; it can express your individuality and style. Great powers, those! To learn how to put them to work for you, read our leaflet, "YOUR MOST FLATTERING COLORS." erecting what they called a sandbag dam.

The big worry in Moline, a city of 48,000, remained the city water plant, surrounded by floodwater. The main problem was getting enough chemicals to keep the water supply safe for consumption. Mayor James Arndt urged citizens to conserve water.

**STORE WATER**  
Both hospitals in Moline were storing water.

East Moline, with a population of 16,000, was relying on the Moline water plant. The East Moline plant went out some

# NEGRO YOUTH SHOT TO DEATH BY WHITE BOY

By LEE LINDER

PARKESBURG, Pa. (AP) — Police said a white youth shot a Negro youth to death Monday, touching off a rock-throwing demonstration by Negroes in this southeastern Pennsylvania farming community.

An angry, jeering crowd of more than 100 children and adults alike threw rocks, smashing windows of a service station where the Negro youth was killed. There were no injuries and no arrests reported, although two unidentified white youths were taken into custody by police.

Police said Preston Ferguson, 16, was killed by a shotgun blast inside the Thomas Oil Co.

Theodore Houck, 15, who attended Octorara High School and worked at the station, was taken into custody and held on a technical charge of homicide.

Police said he was being held at the Juvenile County Home in nearby West Chester for a hearing before a juvenile court judge.

## YOUTH IS KILLED

Negroes started gathering outside the station about three hours after Ferguson was shot, hurling rocks and bricks at windows and at trucks parked nearby. Some Negroes tossed broken bottles at another station and a small group entered a restaurant, where they demanded, and got service. Police said the owner acknowledged he had never served Negroes there before.

Police said other Negroes, driving to the area from surrounding communities, roamed through this rural community of 2,500 in cars.

## CALL FOR HELP

Authorities from surrounding towns arrived to reinforce the local force.

Ferguson had gone into the service station late in the afternoon and got into an argument with Houck, police said. A shotgun blast into Ferguson's stomach killed him.

# Exchange Student Held In Shooting

BELOIT, Wis. (AP) — A Beloit College exchange student from Ethiopia will receive a preliminary hearing on May 7 on a charge of attempted first degree murder in the shooting of a fellow student.

The exchange student, Adgew A. Kebede, 29, is being held in \$20,000 bond, set last week in his initial court appearance and continued Monday by Rock County Judge Edwin C. Dahlberg.

Kebede is accused of shooting James McCarty, 21, of Evanston, Ill., also a Beloit student, on April 17. McCarty, shot in the stomach, is reported in "fairly good condition" at Beloit Hospital.

No reason has been given for the shooting.

# BOTH PARTIES BACK BANK BILL

HARRISBURG (AP) — The Scranton administration's banking code bill has made its way into the Senate with bipartisan support.

The legislation, cosponsored Monday by five Republicans and five Democrats, is designed to streamline the state's present banking laws and put state banks on a more competitive basis with federal banks.

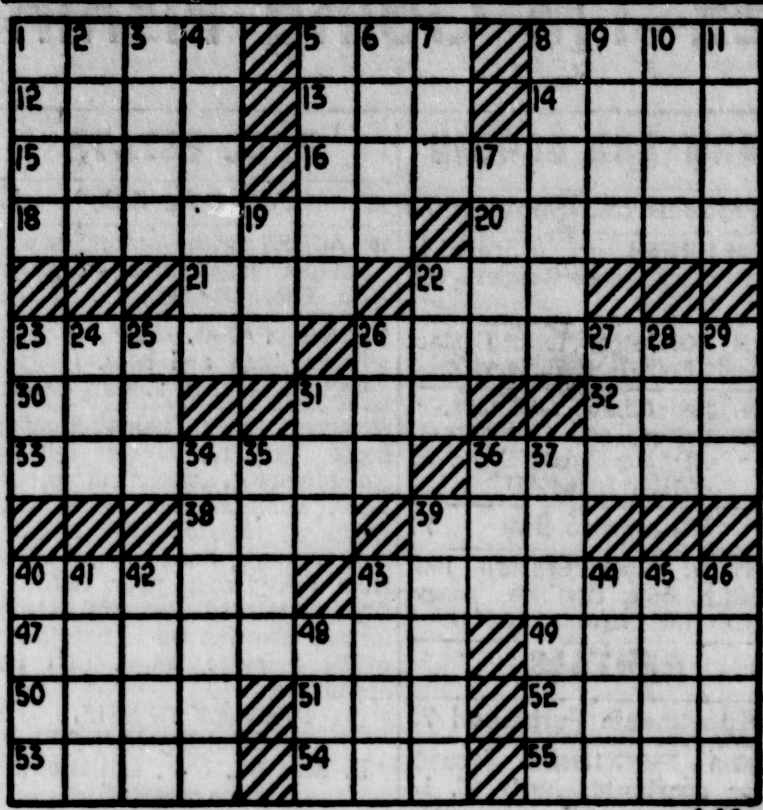

It also is intended to give the

schoolmates, Charlotte Harris, said Ferguson had gone into the station for a cold drink. She said she had told him, "Don't go across the street, because Teddy has a knife, but he didn't listen to me."

Frank Armistead, president of the National Association for the Advancement of Colored People in nearby Coatesville, said, "These people demonstrated because that white boy shot a Negro boy and he thought he had a right to do it. They (Negroes) have a lot of grievances against this town. Something should be done about it."

The population of Parkesburg, which is some 60 miles west of Philadelphia, is about 10 percent Negro.

banking department wider discretion in regulating the banking industry in Pennsylvania.

Sen. Rowland B. Mahany, R-Crawford, who introduced the bill, said the legislation resulted from a one-year study by a special banking law commission appointed by Gov. Scranton.

## PRODUCTS PREFERENCE

Also introduced was a package of legislation to give Pennsylvania products preference in competitive state or authority bidding.

Other bills would:

- Make it illegal to harbor escaped prisoners, subject to a \$50 fine and-or three months imprisonment.
- Prohibit the sale of oleomargarine unless the product is clearly labeled as such.
- Make the state pay 100 percent, rather than 50, of the reimbursement cost due school districts for acquisition of a school site.
- Order the state to set up a group medical insurance coverage for state employees and their families.
- Repeal the State Industrial Mortgage Insurance Act and return the \$500,000 it contains to the Pennsylvania Industrial Development Authority.

# COUNCILMAN IS BADLY BEATEN

READING, Pa. (AP)—Albert E. Schucker, 42-year-old Reading city councilman, was reported in fair condition today in the Reading Hospital where he was taken after he was beaten on Monday night following a Republican ward committee meeting.

Police say they are investigating the attack, which was not reported to them until nearly hours after it occurred.

Schucker, elected to his first term on council two years ago, is director of streets and public improvements.

His wife said robbery apparently was not the motive of the attack since nothing was missing from his pockets.

Schucker first was taken to Dr. Alfred T. Johnson of suburban West Lawn by a person described only as "a friend." The doctor ordered him admitted to the hospital with possible head injuries and facial cuts.

using their property for outdoor recreation. Rep. William Renwick, D-Elk, said the bill is designed to encourage more landowners, who might otherwise fear liability, to make their properties available to the public for recreation.

HARRISBURG (AP) — A \$1 million appropriation was proposed Monday in the House, for the Southeastern Pennsylvania Transportation Authority. The appropriation, referred to committee, would finance construction of a railroad from hatboro, Montgomery County, to Johnsville, Bucks County.

# ALLOTS FUNDS IN PROJECT 70

HARRISBURG (AP) — Gov. Scranton approved today the use of Project 70 funds for the purchase of over 4,500 acres of land by local municipalities in 16 counties.

These are the first funds to be allocated by the Department of Commerce under Project 70, the governor's office said. The land is to be used for development of new parks and recreational areas.

The money will be matched on a 50-50 basis for establishment of new conservation-recreation facilities at 31 different sites.

Today's allocations represent the final approval of formal applications from those communities which already have followed up their original preliminary statements of interest, Scranton said.

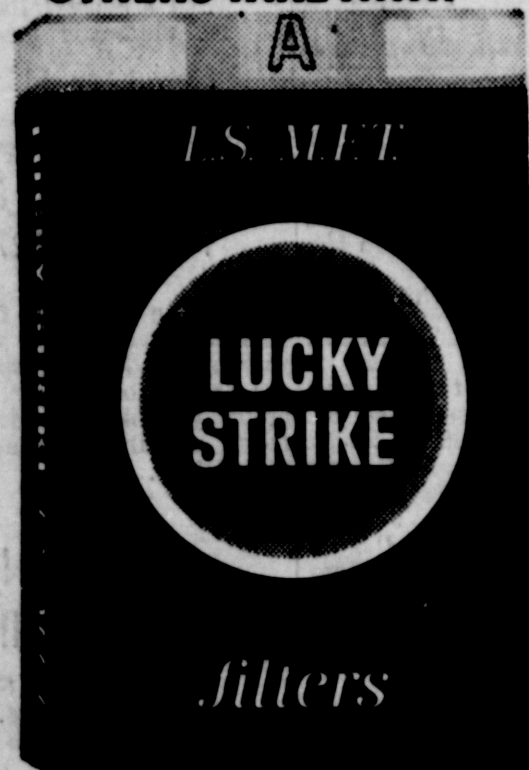

Under Project 70, \$20 million has been allocated to the Department of Commerce for use by local communities on a matching fund basis, another \$40 million to the Department of Forests and Waters for acquisition of lands for new parks and historical museums and \$5 million each to the game and fish commissions.

Ed. Note: No projects are listed for Adams County.

HARRISBURG (AP)—Herbert E. Harrison, who lives in Mid-Ettersburg, Pa., 10 miles from the state capital won first prize when he submitted the winning name for a new state office building.

His prize—an all expense-paid trip to the capital.
